Included in this price

- Every examination and item in this package's complete list below.
- **Personal coordination:** individual appointment planning and support through report delivery.
- **English-speaking accompaniment** throughout your hospital check-up.
- The hospital's original Chinese report and a complete English translation.

No second charge for included services. Additional tests or treatment require a separate price and your approval.

Clinical services are delivered by the hospital. Personal coordination and accompaniment do not promise a hospital VIP area, clinical priority or a medical outcome.
