VIP personal service means MyChinaCheckup's individual coordination and accompaniment. It does not promise a hospital VIP ward, priority medical access or a medical outcome.

Eligibility: The gynaecological examination, routine vaginal discharge examination II, TCT and 28-type HPV genotyping are included in the married-women option only. Those four items are not included in its unmarried-women option. Confirm the appropriate option, individual suitability and consent with the hospital.

Choose by the complete list for each option. A higher price does not replace comparison of the named examinations, eligibility and imaging scope. Clinical services and individual suitability are determined by the hospital.
