# Women's Advanced 02

同济大学附属上海市第十人民医院 · 女士进阶套餐02

**US\$745** USD per person · examinations and included services

## Included in this price / 费用包含

- Every examination listed below. 下列套餐检查项目。
- MyChinaCheckup appointment coordination. MyChinaCheckup预约协调。
- Dedicated English accompaniment throughout the check-up. 全程英文陪诊。
- Hospital-issued Chinese report and complete English translation. 医院中文报告及完整英文翻译。

The hospital provides medical care and determines clinical suitability. MyChinaCheckup provides arrangements, appointment coordination and English accompaniment.

医疗服务由医院提供。MyChinaCheckup提供体检安排、预约协调和英文陪诊。

**Independent lists:** Select 03 does not include the urine biochemistry panel listed in Basic 01 and Advanced 02. Higher price does not mean every lower-priced item is included.

Transvaginal ultrasound, gynaecological examination and cervical/vaginal sampling require individual suitability and informed consent. Discuss relevant clinical history and pregnancy or possible pregnancy with the hospital. Marital status alone does not determine clinical suitability.

女士项目依据所供资料中的已婚女列整理。阴超、妇科检查及宫颈 / 阴道取样须经医院结合个体情况评估并取得知情同意；婚姻状态不能代替临床判断。

## Complete bilingual examination list

Panel components are retained in Chinese source wording. Exact assays and examination protocols require hospital confirmation. No missing or alternative examination has been added.

| Examination and scope                                                                                                     | Chinese source wording |
|---------------------------------------------------------------------------------------------------------------------------|------------------------|
| <b>Clinical assessment</b>                                                                                                |                        |
| Blood pressure, pulse, height, weight and BMI                                                                             | 一般项目：血压、脉率、身高、体重、体重指数  |
| Internal medicine, surgical, eye, ENT and oral examinations<br>Clinical examinations; specialist treatment is not listed. | 一般检查：内科、外科、眼科、五官科、口腔科  |

| Examination and scope                                                                                                                                                    | Chinese source wording                  |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------|
| Compilation, analysis and assessment of check-up findings                                                                                                                | 总检：资料汇总、分析、评估、工本                        |
| <b>Laboratory tests</b>                                                                                                                                                  |                                         |
| Complete blood count                                                                                                                                                     | 血常规                                     |
| Routine urinalysis                                                                                                                                                       | 尿常规                                     |
| Urine biochemistry: microalbumin, beta-2 microglobulin and retinol-binding protein                                                                                       | 尿生化：尿微量白蛋白、尿 $\beta$ 2微球蛋白、尿视黄醇结合蛋白     |
| Liver function panel<br>Panel composition must be confirmed by the hospital; no total test count is asserted.                                                            | 肝功能：ALT、TBIL、DBIL、ALP、GGT、AST、TP、ALB、GR |
| Kidney function panel<br>Urea nitrogen, creatinine and uric acid; the source also lists cystatin C.                                                                      | 肾功能：尿素氮、肌酐、尿酸、胱蛋白酶抑制剂C                  |
| Homocysteine                                                                                                                                                             | 同型半胱氨酸                                  |
| Lipid panel<br>Exact panel composition requires confirmation. The source abbreviation DHL is retained without substituting another test.                                 | 血脂：TCH、TG、DHL、LDL                       |
| Fasting blood glucose and glycated haemoglobin (HbA1c)                                                                                                                   | 空腹血糖、糖化血红蛋白                             |
| Tumour-marker panel<br>The source abbreviation CA-211 and exact panel composition require confirmation. Marker results do not by themselves diagnose or rule out cancer. | 肿瘤标志物：AFP、CEA、CA-199、SCC、CA-211、CA242   |
| CA125 and CA153<br>Interpretation and suitability are determined by the hospital.                                                                                        | CA125、CA153                             |
| Thyroid function and antibody panel<br>Source abbreviations are retained; the hospital confirms the exact assays.                                                        | 甲状腺功能：FT3、FT4、TSH、TMAB、TGAB、TPOAB、TRAB  |
| Trace elements: lead, zinc, copper, cadmium, manganese, iron, calcium and magnesium                                                                                      | 微量元素：铅、锌、铜、镉、锰、铁、钙、镁                    |
| <b>Ultrasound</b>                                                                                                                                                        |                                         |
| Abdominal colour ultrasound: liver, gallbladder, spleen, pancreas and kidneys                                                                                            | 彩色B超：腹部（肝、胆、脾、胰、肾）                      |
| Thyroid colour ultrasound                                                                                                                                                | 彩色B超：甲状腺                                |
| Carotid ultrasound                                                                                                                                                       | 颈动脉B超                                   |

## Before your appointment

Clinical suitability, availability, preparation, the centre entrance and report timing are confirmed before booking. An enquiry does not reserve an appointment. Tell the hospital about pregnancy or possible pregnancy and relevant clinical history before CT, breath testing or intimate examinations.

Additional tests, treatment, medicines, transport and accommodation require separate arrangements and prices. Read the [cancellation and refund policy](#), [service terms](#) and [privacy policy](#).

预约时间、检查适用性、准备事项、集合地点及报告时间须事先确认。套餐外检查、治疗、药物、交通及住宿需另行确认安排和费用。

The supplied tables contain inconsistent panel counts and unclear abbreviations. Lipid and tumour-marker panel composition (including source abbreviations DHL and CA-211 where listed) requires hospital confirmation. No total test count is asserted.

原表部分子项数量与缩写存在不一致，须由医院确认具体组成；不据此补加项目或替换为其他检查。
